GOLD KEY PLANS EXCITING FALL PROGRAM

Random Impressions of the Gold Key Spring Dinner Aboard the Santa Maria at Port Everglades, on Saturday, May 4, 1968

By the Myopic Observer

Two tall Lagosta a costa do sol — that's crayfish to you — standing erect and facing each other, and with an actual bright illumination between them, so that the whole fancy big tray of succulent food looked like a lighthouse with its beacon shining . . .

Another large tray of dessert which featured a moving windmill . . . and the eggs cooked in long, thin strips or streamers like yellow shredded wheat, and sweetened . . . a popular Portuguese-style dessert called Lamprey of Eggs Moncao . . . The Russ Frenchs, just back from an anniversary cruise . . . President Cy Young and his professional projectionist,

chagrined that local electricity, put through the ship's transformers, wouldn't quite operate the camera for the filmed interviews of famed personalities of the Nova University Advisory Board . . . Prexy Warren Winstead, just back from a business trip to Europe, looking fit and rested . . . The Santa Maria, spectacular at night, brilliantly lighted, with pennants flying from stem to stern in honor of GOLD KEY and Nova University . . . Stan Emerson's

As the Academic year 1967-68 comes to a close, GOLD KEY and the University are busy with expanded plans for 1968-69.

* * *

GOLD KEY's fall dinner is already set for November 29 — the day after Thanksgiving — and one of the most brilliant men of science, not only of this country but of the World, has agreed to come and speak to us. . . . More about this program in the first fall issue of the Novacrat.

* * *

President Cy Young and his Mary Ellen took off, just after the Spring Program aboard the Santa Maria, for a well earned rest and vacation in Europe.

* * *

GOLD KEY looks forward to the fall and the arrival of Dr. Dayton E. Carritt, who will head the GOLD KEY CHAIR OF CHEMICAL OCEANOGRAPHY.

Dr. Carritt comes to Nova from the Massachusetts Institute of Technology. Dr. Carritt has served the past five years at M.I.T. as professor of Chemical Oceanography. He received his Ph.D. in chemistry from Har-

vard in 1948.

* * *

In the film, made when the great Nova Advisory Board was here this Spring, Dr. Carritt explained the interest of Oceanographers in fresh as well as salt water.

RANDOM IMPRESSIONS (Cont'd)

surprise that Myrus, the Mentalist, could tell him his mother's first name . . . Handsome Captain Inacia Fontes Pereira de Melo Vieira — truly "The Silver Fox of the Atlantic"—drawing from a silver loving cup held by President Young the names of Bruce Pitcairn and Dr. Myron Segal, who, with their wives, were awarded first-class passages aboard the Santa Maria to and from Lisbon . . .

Executive Director Burghard, working with the ship's photographer, who spoke only Portuguese, trying to get him ready for Trustee Chairman Jim Farquhar's presentation of a plaque to Martha Cusack for her generosity to the University . . . an impressive ceremony, by the way . . . Myrus predicting that the Viet Nam war would be over in late June . . . Myrus naming Judith Ellis' four children . . . Bill Horvitz entertaining the Maitlands . . .

. . . What a distinguished and colorful group are GOLD KEY men and their womenfolk bedecked in their evening party finery! . . . The ship's band, six pieces, played well and with a good beat . . . and there were good dancers present . . . It was interesting to note that, after the 10 or 12 courses of the regular banquet were served, that few—if anybody, ordered any suckling pig, roast beef, York or smoked ham, or the delicious queijos, (Portuguese cheeses), which were also available . . . The Timbalo de Foie-Gras, Monte Estoril, couldn't be resisted . . .

The ship's second in Command, Chief Mate Armando Soares Machado; Chief Purser Manue Correia dos Santos, as important to the operation of the Santa Maria as the City Manager to a big modern munici-

pality; Julio Simoes Dias, second purser; and Jorge Martinez, of Shaw Brothers Shipping Company; as well as Captain Vieira, all presiding over, and acting as hosts, at various GOLD KEY tables.

. . . Myrus telling a questioner, Marilyn B. Sabin, the exact pages between which, in an old dictionary, a lost legal document could be found . . . The fashionable (in some social sets and some countries, but not necessarily in Fort Lauderdale-Hollywood, Broward County) lateness of the hour when dinner was served. . . . Among those participating in GOLD KEY's 1968 Spring party were:

Dr. and Mrs. Myron L. Ashmore; Mr. and Mrs. Robert O. Barber; Mr. and Mrs. Gregory J. Barry; Mr. and Mrs. Aaron Barzilay; Mr. Alben Bates; Mrs. J. Robert Baumgartner; Mr. and Mrs. August Burghard; Mr. and Mrs. Robert M. Curtis; Mr. and Mrs. John M. Cusack; Mrs. Beverly Deardon;

Mr. and Mrs. James Donn, Sr.; Mr. and Mrs. Dick Doty; Mr. and Mrs. W. Tinsley Ellis; Mr. and Mrs. Robert C. Ellyson; Mr. and Mrs. Robert L. Elmore; Mr. and Mrs. Stanley A. Emerson; Mr. and Mrs. James Farquhar; Mr. and Mrs. Foy B. Fleming; Mr. and Mrs. Fred C. Flipse; Mr. and Mrs. Hamilton C. Forman; Mr. and Mrs. G. Russell French; Mr. and Mrs. Leo Goodwin, Jr.; Mr. and Mrs. Alan M. Gunn;

Mr. and Mrs. Alvar Hagen; Mr. and Mrs. James M. Hartley; Mr. and Mrs. Warren J. Henderson; Mr. William D. Horvitz; Mr. and Mrs. Abe Mailman; Mr. and Mrs. John I. Maitland; Mr. and Mrs. Jorge A. Martinez; Mrs. Edythe McCowan; Mr. and Mrs. Francis T. McCahill; Mr. and Mrs. John D. Mendez; Mr. and Mrs. John E. Morris, Jr.; Mr. and Mrs. Clare I. Rice;

Mr. and Mrs. Dwight L. Rogers, Jr.; Mr. Earl A. Ross; Mr. and Mrs. A. J. Ryan, Sr.; Mr. and Mrs. Charles H. Sabin; Dr. and Mrs. Bruno C. Schmidt; Mr. and Mrs. Earle M. Scott; Dr. and Mrs. Myron I. Segal; Mr. and Mrs. Thomas N. Shelton;

Mr. and Mrs. Kelly Y. Siddall; Mr. and Mrs. Sherwood Spencer; Mr. James Sullivan; Mr. and Mrs. John Walker; Mr. and Mrs. William E. Wardman; Mr. and Mrs. Rolf S. Weidling; Mr. and Mrs. Gene A. Whiddon; Dr. and Mrs. Warren J. Winstead; and President and Mrs. M. R. "Cy" Young.

Kelly Y. Siddall is a director of the Council of the Broward Industrial Board.

GOLD KEY SPRING DINNER HONORS ITS LADIES

DR. LOUIS PARKER HONORED BY WHO'S WHO

A citation for Educational Philanthropy has been awarded by WHO'S WHO IN AMERICA to Dr. Louis Parker in recognition of his substantial gifts to education in America, specifically to Nova University.

These citations are a function of the Board of Editors of WHO'S WHO and are made only once each biennium. Two principal awards were made from the numbers of nominations submitted. The Temple Hoyne Buells, of Colorado and Florida's Parker.

Twenty-four other special citations, in addition to the two winning awards were made, including Author Theodore Pratt, of Delray, who gave to F.A.U. a collection of his memorabilia as a guide to writers and researchers; and the Fort Lauderdale charter chapter of the American Business Women's Association.

The Lauderdale chapter of the American Business Women's Association offered four scholarships during the first three years of its existence, with two more scholarships in the current year.

Congratulations to GOLD KEY member Parker. It is a fitting recognition.

GREETINGS FROM DR. CARRITT

Cordial greetings to the GOLD KEY membership have been received from Dr. Dayton E. Carritt, now at Massachusetts Institute of Technology, Cambridge, Mass., who will join the Nova University faculty this fall.

Dr. Carritt's gracious communication said in part:

"I must tell you that Mrs. Carritt and I thoroughly enjoyed our short visit to Nova during the Advisory Board meeting. Since leaving Ft. Lauderdale, I have been at sea, an occupational hazard with me, and have been unable to attend to correspondence, etc., until now.

I am certainly pleased and honored to occupy the first GOLD KEY chair in chemical oceanography. I am sure that with the enthusiasm and genuine interest exhibited by so many people for Nova, the university is assured of a successful future. I am happy to be a part of it and will do my utmost to help in the effort.

Sincerely,

Dayton E. Carritt
Professor of Oceanography

PRESENTATION

NOVA UNIVERSITY

In Appreciation

The Trustees of Nova University express their deep and abiding gratitude to

Martha W. Cusack

for her gift to this University at an early and critical stage in its development. By this substantial and generous gift, Martha Cusack has made a farsighted contribution to American higher education and to the well-being of Southeastern Florida that will stand as a memorial to both her wisdom and her public spirit.

James Farquhar, Chairman
BOARD OF TRUSTEES

In the above informal photograph, made before the Cusack presentation at the GOLD KEY Spring Dinner, are, from Trustee GOLD KEY member Foy Fleming's left, clockwise, "Marty" Cusack, Kelly Siddall, Joan Fleming, John M. Cusack, Helen Siddall, Stanley A. "Stan" and "Fran" Emerson.

Gold Key (Cont'd)

In this connection, Charles S. Yentsch, Associate Nova Professor of Marine Biology, has made a study of New River, and at the request of Bob Cox of the Marine Advisory Board, has reported some of his findings on river pollution to the Fort Lauderdale City Commission.

As the summer season approaches the staff of the Novacrat — its editors, writers, poets, typesetters, photographers, and circulation managers — the entire staff — unite in wishing for all GOLD KEY Members and their ladies relaxing vacations and a renewal of spirits in anticipation of sparkling accomplishments in 1968-69.

THE ADVISORY BOARD

This Board, which includes two Nobel Laureates, has James R. Killian, Jr., Chairman of the Corporation, Massachusetts Institute of Technology; Richard G. Folsom, President, Rensselaer Polytechnic Institute; Abram L. Sachar, President, Brandeis University;

Frederick Seitz, President, National Academy of Sciences; Athelstan Spilhaus, President, Franklin Institute; Robert B. Gilmore, Vice President—Business Affairs, California Institute of Technology; Burton R. Clark, Professor of Sociology, Yale University; Philip Handler, Chairman, Dept. of Biochemistry, Duke University.

J. Hans D. Jensen, Director of the Institute of Theoretical Physics, University of Heidelberg (1963 Nobel Laureate in Physics); T. R. McConnell, Director, Center of Higher Education, University of California, Berkeley; Emilio Segré, Professor of Physics, University of California, Berkeley (1959 Nobel Laureate in Physics); Paul F. Brandwein, Consultant in the Development of Nova High School and Director of the Pinchot Institute.

Dr. Glenn T. Seaborg, Chairman, the Atomic Energy Commission, Washington, D.C. is the newest member of the Advisory Board.

ATOMS OF RIME

by

DR. BRUNO C. SCHMIDT

THE ADVISORY BOARD

Men of wisdom, men of vision,
Molded into one accord;
Experts of fusion or fission,
Touched by talents from the Lord.

Well and fountain of true living,
Shining as a beacon's beam—
Ever ready to be giving
Out the harvest of their dream.

NEWSY DOTS (Cont'd)

George and Alma English are back from an early vacation trip on board the Carmania out of Port Everglades. They visited St. Thomas, Antigua, Martinique, Aruba and Caracas. There is no better way to get away from telephones and pressures of every day than on a southern cruise George has been voted a life member of the Fort Lauderdale Lodge of Elks.
